Better Life with Music

F-110-WH (White)

F-110-SB (Satin Black)

Enjoy the beauty and natural performance of the stylish F-110. The latest member of the Roland digital-piano family is the compact and lightweight F-110, featuring a stylish wood cabinet that will blend into any home interior, classic or contemporary. The F-110's minimalist aesthetic design combined with an intuitive and simple user interface makes playing a pleasure.

Decorative panel sheets (included) let you customize the appearance of your F-110.

Musical Inspiration and Affordable Elegance for Your Room

Streamlined Cabinet Design

The space-saving cabinet depth of only 30cm (approx. 12") lets you place the piano anywhere in your room. The folding lid provides a variety of looks and functions. When open, it serves as a music rest. When closed, it safely covers the keyboard and offers a clean, desktop look. The choice of classy cabinet finishes (satin black or white) will blend with any environment. For a personalized look, you can customize your F-110 with replaceable decorative panel sheets (included).

Full Concert Grand Piano Sound

The F-110 features an 88-key stereo multi-sampled piano sound in which the distinctive acoustic properties of each key have been captured. It delivers 128-voice polyphony so you never need to worry about note cutoffs, even on fast, sustained passages. Enjoy a truly authentic playing experience!

Natural Key Touch

With its PHA (Progressive Hammer-Action) alpha II keyboard, the F-110 has an amazingly natural key touch that reproduces the feel and response of an acoustic grand piano. Lower keys are more heavily weighted. As you move up the keyboard, the key weight becomes progressively lighter.

Easy Operation

The F-110 provides an intuitive control panel with LED and dedicated buttons that let you navigate the features with ease and confidence.

Continuous-detection Pedals

The built-in luxurious metallic 3-pedal unit gives you smooth, natural playability. It reproduces subtle changes in the sound (similar to the way a grand piano's damper interacts with the strings) and it authentically controls the amount of release vibration when the pedal is pressed gradually.

Enjoyable Lesson Features

Over 60 piano songs are included for your listening and practicing pleasure. With each song, the tempo and key are changeable, and you can mute the right-, left-, or accompaniment Part for play-along practice. The onboard metronome and recorder helps make piano lessons more efficient.

Decorative panel sheets

Customize the look of your F-110 with the replaceable decorative panel sheets (included). Two types of sheets are provided for each cabinet variation (satin black and white).
