## RH-300

## Stereo Headphones

Roland's top-of-the-line headphones for ultimate in sound quality, appearance, and performance. With newly developed 45mm driver, neodymium magnets, and CCAW (copper-clad aluminum wire) voice coils, the RH-300 headphones offer the clarity, sonic accuracy, and ultra-wide frequency range.

- Flat, accurate sound quality derived from the RH-200/RH-200S
- Newly developed driver provides ultra-wide frequency range
- Classy appearance with aluminum housing plate

## RH-200S

## Stereo Headphones

Silver-colored, straight-cable version of the acclaimed RH-200 headphones.

- Adjustable, lightweight design provides superior sound isolation and comfort
- High-power capacity with 40mm drivers, neodymium magnets, and CCAW voice coils
- 180-degree rotating ear pieces for single-ear monitoring

## TDM-20/TDM-10

## V-Drums Mat

Prevent your drum components from slipping while simultaneously safeguarding your floor from scratches and reducing impact noise/vibration. Roland's new TDM-10 and TDM-20 heavy-duty drum mat is adorned with the Roland V-Drums® logo. The mat is available in medium and large sizes.

- 3-layer structure with nylon filament, felt, and soft urethane resin for noise reduction and shock absorption
- Excellent match with Velcro tape to hold the kick-trigger pad or kick pedal on the mat
- Non-flammable materials
